

Dates indicated are Draft Dates for guidance only, with actual event date confirmed closer to the actual indicated draft date for the event. All events will only be undertaken if TRNC Government Regulations can be complied with. Events are subject to change should circumstances arise.

ATA Organised EVENT for 2021

A guided Bird Watching Trip – actual date to be confirmed

26/04/2021 UPDATE: Due to a lack of member interest in this event at the current moment in time, this event is postponed until a future occasion.

As on previous occasions our ALL-DAY bird watching experience will be led by a renowned expert whose knowledge and expertise in all aspects of wildlife make for both an enjoyable and interesting day for the experience 'Twitchers' as well as the less so.

Cyprus is situated between two of the great bird migration routes' one from the Balkans to Africa, and the other from western Russia Southwards through Palestine to East Africa.

North Cyprus is home to an impressive 347 different species of birds, seven of which are unique to Cyprus.

The yearly arrival of migrating birds heading northwards in May, include the blue rock thrush, spectacled warbler, the resident Cyprus warbler and wheatear, black-headed bunting, alpine swifts, swallows, swifts, hoopoe, masked shrike and little ringed plovers, although with over 347 different species of birds, seven of which are unique to Cyprus organised bird watching is a treat to behold.

Everyone who has previously experienced our Bird Watching event has enjoyed themselves and not only had a great time but also learnt much from our expert's enthusiasm for our feathered friends.

Join us for an unforgettable experience and something you will tell your friends about for ages!

During the event lunch will be served at a local restaurant.

An event itinerary will be published on the association Website and Facebook Group + Page once actual dates and costs are confirmed.

Please be aware that numbers for this event are limited.

Because of TRNC Government Covid-19 restrictions, if you would like to attend this event, can you please email the associations Events Organiser Debbie Bird via events.ata.trnc@gmail.com by Thursday 22nd April.

We have spoken to Robin Snape who many of you will know is part of SPOT and KUSKOR and there is the possibility that we would be able to have a day out with him Bird Watching in early May.

The full day event by coach with lunch included would have to take place at the beginning of May due to Robin's commitments with turtle conservation in the TRNC.

In order to see if this event is feasible to take place, we need to know how many people would be interested in going on this bird watching event.

So we are asking this –

If you would be interested in attending this bird watching event at the beginning of May 2021 can you please reply to Debbie by Thursday 22nd April 2021.

Once we have received the replies, we can calculate if the event is possible to undertake, costs etc and will let everyone know the full details of this exciting event.

Thank you

Debbie Bird events.ata.trnc@gmail.com

26/04/2021 UPDATE: Due to a lack of member interest in this event at the current moment in time, this event is postponed until a future occasion.

Descriptions of all Events are done so using poetic journalistic license and should not be assumed to be a detailed description or itinerary of any particular Event, rather a '*wetting the imagination*'. Detailed information on all Events will be emailed to members in sufficient time prior to the actual Event to enable informed decisions made as to if the Event is of interest to you. For more information on any of our Events in 2021 please email our Events Organiser; contact details can be found on the committee members page and events page of our website.
