

Karakum Special Needs School update 05-09-2024

The goods have finally arrived from Türkiye to build the Sensory room at the school!

Chairs, soft toys, games, ladders, climbing frames and many more items have now been delivered.

ATA Committee members, Levent Özerdağ, Richard Currie and Tim Morgan are seen here inspecting the goods, still to be unpacked, with a member of the school teaching team.

We expect the room to be built and ready for school when it opens in 2 weeks' time. More pictures of the finished item then.
